Vampire Parents

I thought my parents were just like everyone else's parents until I discovered their secret past.

Today, when I got back home from school, I received a phone call from my mother. She asked me to take my passport from her room to apply for a visa, because we would go to Australia to spend our vacation. But when I opened the safe, all I saw at first was a bottle of red liquid. I was so curious that I opened the cap and smelled. It was so smelly and stinky. I thought that it was blood. When I thought of blood, the idea of vampires came to me subconsciously. Were my parents vampires? My hands were shaking uncontrollably.

After calming myself down, I searched many websites about vampires. I found that vampires like drinking blood. Also, I saw some photos of my parents taken in the past. They were all taken at night. One of the characteristics of vampires is this: they are only active at night. So, I was certain that my parents must be vampires. Because I was so afraid, I went to my friend's home.

Later that night, I returned home. I turned the key and unlocked the door. To my horror, I saw my parents eating human flesh and drinking human blood. I was so frightened that I rushed out of the house.

Now I'm hoping that everything is just a dream.
