Witch's Potion

I turned the key and unlocked the door. To my horror, I saw an old witch holding a mirror. I ran away as fast as I could, but the witch said she wanted to show me my future. I walked slowly towards her and she spoke some spells. Then the mirror showed us my future. I saw that my future was bad. She told me that if I keep being unkind and bad, my future would be very bleak. She said that she could help me. I followed her to another room. It was filled with horrible things like blood, bones and many potions. She took one of the potions and gave it to me to drink. After drinking it, I turned into a bear! The witch had tricked me! I was very angry, but didn't know what I could do. The witch laughed at me and said, 'If you want to turn back into a human, you need to be nice and kind to all people.' Then suddenly, the witch disappeared and I fell into a forest. I heard a voice above my head saying, 'You have two days to improve your bad behavior. If you improve, you will be turned back into a human. Suddenly, lots of money fell down from the sky. I grabbed the money and stuffed it into my pockets. I walked for a while in the forest until I came to a small village. I remembered that the witch had said that I should be nice and kind in order to turn back into a human, so I gave some money to the villagers and left quickly. After that, a light flashed across the sky. Hurrah! I was turned back into a human. Suddenly, I heard my mum's voice, 'Get up!' I got up and saw that I was at home! I felt very happy that it was just a dream. Fortunately, I learned one thing from my dream: We should always be kind and helpful to others.
